Couples Spa Experience

TRADE WINDS

East meets West in this popular experience. Together you will begin this treatment with an indigenous body scrub to exfoliate the skin. Gentlemen will begin their experience with the Terra Timur, while the ladies will experience the Papaya Gentle Body Scrub. This will be followed by the classic deluxe Swedish Massage and European Facial.

TRADITIONAL ROYAL MALAY TREATMENT

The Malay people have a long and honoured tradition of healing therapies. Special focus is given to the particular needs of men and women. Massages for men are meant to improve valour and virility. For women the treatments enhance beauty and improve fertility. In this couples spa experience, gentlemen will be treated like the Malay warrior, Hang Tuah, while the women will be treated like the much loved princess, Tun Teja.

A Malay family who cherishes their heritage and prepares the herbs and oils has graciously shared this treatment. We invite you to enjoy it together.

Hang Tuah begins with a men's traditional Malay facial and body massage, followed by a body scrub. This massage enhances male virility. The women begin Tun Teja with a body massage and beauty scrub. Together they will then relax in a herbal bath in their private garden to restore energy and relax the body.

One of the most interesting aspects of this Malay therapy is the use of scented body steaming. Following the bath, both men and women will be rubbed with specially blended oils and receive a body steaming. This steaming is said to delay the process of aging.

Upon finishing, the couple will sip specially concocted herbal teas while viewing the garden. Truly you will have received the royal treatment.

NUSANTARA TREATMENT (TRADITIONAL SOUTHEAST ASIA)

Using the historic reference of the herbs and plants of this region, these signature treatments have been developed specifically for Spa Village Kuala Lumpur. In the Nusantara Treatment, you will experience the finest herbs of Southeast Asia.

We have selected the Gandapura treatment for him and Rose Therapy for her. The Gandapura treatment is designed to enhance male sensuality. Rose Therapy is for overall beautification and femininity.

Gandapura (Gentlemen)

The gentleman's experience begins with a rejuvenating hair treatment and papaya (carica) body masque to exfoliate the skin. Relaxing in the steam room allows the oils to be absorbed into the hair and body. This is followed by a luxurious bath and concludes with a full body massage.

Rose Therapy (Ladies)

This therapy begins with a hair treatment of rose and lavender. A rose petal body masque is applied and left on while relaxing in the steam room. This is followed by a milk bath with roses and concludes with a full body massage.

CHINESE PERANAKAN TREATMENT

This treatment is a tribute to the unique culture derived from the marriage of Malay and Chinese. It begins with a Milk Nectar Meditation to calm the nerves, followed by a Pearl and Rice facial. The facial includes the Traditional Egg Undulation and Mulberry Leaf Eye Treatment.

A Moxa Naval Activation to improve metabolism, ease digestion and jetlag, precedes the Rattan Tapping Qi-Gong. The treatment concludes with Tui-na An-mo massage.

CAMPUR-CAMPUR *

The name Campur-Campur means a blending of varieties in Malay. Combining the best techniques of Malay and Thai massage, this exclusive signature creation of Spa Village uses touch, tone and aromatherapy to give you a unique and memorable experience. The scent of lemon grass and pandan leaves fills the air as steamed herbs are pressed along the body using a traditional steam pouch.

Massage Therapy

SWEDISH

This classic Western oil massage works predominantly with the muscles, soft tissues, and joints, utilising long, rhythmic strokes. Please request light, medium or deep pressure.

AROMA

The powerful effects of aroma on the body and mind, combined with a technique designed to elicit a feeling of profound relaxation, make this massage an ideal choice for anyone who wishes to reduce stress. To ensure quality and achieve the desired effects, we have produced our own blends of aromatherapy oils, with a choice of Relaxing, Purifying or Uplifting.

HOT STONE

Healing with stones is an ancient form of therapy used by various cultures throughout the ages. Massaging the body using smooth, heated river rocks and the long, rhythmic strokes of Swedish massage techniques, resulting in deep relaxation and melting away of tension and stress. Available as a 90-minute Supreme massage only. Reservation must be made at least half an hour prior to treatment.

LOMI-LOMI

This ancient Hawaiian massage is passed on from generation to generation. Recognised by its strong hula like movements, this is an experience that has been passed on to our therapists through the healing hands of our Hawaiian trainer.

MALAY

The art of traditional Malay massage is passed on from generation to generation. The technique consists of long kneading strokes that focus on the muscles and pressure applied to various points on the body. This treatment uses pure essential oils of ylang ylang, orange, clove, ginger and patchouli.

TUI-NA AN-MO

One of the major differences between Chinese massage and other techniques of massage is the emphasis on the acu-points and directional flow of the subtle channels in the body. Tui-na massage is more than a system of relaxation and tension release. Although attention is also placed on the tendo-muscular system, the focus on subtle channels allows one to influence the organs on a deeper level and treat complex complaints.

THAI

It is described as 'Yoga Massage' for its stretching and bending movements. This is ideal for anyone who desires increased energy flow and flexibility. A t-shirt and loose cotton pants are provided.

BALINESE

This massage combines a historical reference from many cultures, which form the foundation of Balinese traditions. Thus, the ritual utilises techniques that vary in tempos of acupressure, rolling motions, long strokes and percussion, which provide an invigorating and energising experience for the body.

NINETY-NINETY
